Data Analyst translating ambiguous questions into measurable impact and clear decisions.

Software: SQL (MSSQL, BQ, Presto), Excel, R, Looker, Power Bi, Python, Git

Languages: Hebrew & English — Native speaker

Personal Projects

- Numerous analytical blog posts exploring statistics, data analysis, SQL and more. *Website*
- Sharing anonymized SQL challenges from my daily work. *Website*
- Data visualization: Collection of assorted ongoing visualizations. *Webpage*

Experience

Data Scientist, Product Analytics

Meta

2025

- Drove experiment-level decision making in close partnership with PMs and Engineers, shaping targeting logic, eligible populations, and product constraints; deeply owned one initiative that delivered ~\$22M in projected incremental uplift.
- Scoped and quantified new product opportunities by estimating addressable markets and expected uplift (e.g. ~\$2M upside), enabling data-driven prioritization and roadmap tradeoffs.
- Built the team's incremental revenue measurement foundation by introducing team-level holdouts, making launch impact measurable and aligning go/no-go decisions with a \$45M annual revenue target.

Senior Risk Data Analyst

Payoneer

2021 - 2025

- Led compliance cost and revenue trade-off analysis, quantifying analyst workload and fraud losses to inform prevention and go-to-market decisions.
- Drove end-to-end fraud analytics initiatives, including toll fraud, bot mitigation, and partner risk segmentation to support targeted controls.
- Partnered with Data Science to evaluate fraud models, improve training data, and propose features based on emerging fraud patterns.
- Built dashboards from risk KPIs and metrics to inform stakeholder decisions.

Research Assistant Analyst

Department of Government and Politics

2018 - 2021

- Conducted quantitative research using multilevel models and R; co-authored a peer-reviewed Q1 journal publication and presented findings at academic conferences. *open access article.*

Teaching Assistant

Department of Sociology & Anthropology

2018 - 2020

- Supported statistics undergraduate courses, including hypothesis testing, regression, and experimentation.

Israeli Liaison for the Jewish Agency

Rockville, MD, USA

2013 - 2015

Education

MA. Sociology & Anthropology

Ben Gurion University

Thesis: "Trust & Privacy in the online cannabis market."

2021

BA. Sociology, Anthropology & Political Science

Ben Gurion University

Magna Cum Laude

2018

Military service

Tank Gunner; current reserve duty in Home Front Command.

2009 - 2012
